Work experience

BairesDev

Remote

Software Developer

2022 – Present

At BairesDev I'm part of a team of 10 implementing a software for a major agro company. Working on the front-end with React, MaterialUI and TypeScript and on the back-end using Node, Express and Prisma.

Qempo

Lima, Peru

Software Developer

2018 – 2020

This was my first job and I am grateful for my time there. Qempo is a shopping platform that allows customers in South America to buy items only available in North America. I was part of a scrum team of 7 developers. Some of the things I did were:

- Develop shopping platform with more than 200k users. The front-end stack consisted of React, Redux, react-router, RxJS and FlowType.
- Lead the front-end development of the back-office webapp to increase logistics efficiency.

Education

McGill University

Montréal, Québec

B.A. Computer Science. Completed 2 years.

2020 – 2022

Certifications

freeCodeCamp

JavaScript Algorithms and Data Structures.

2018
